PERFECT POUR Olive Oil & Vinegar Pour Spouts

Anytime Olive Oil Products offers the very best olive oil and balsamic pour spouts in the industry. Why are ours the best, different from others in the industry?

- Made of 304 18/8 stainless steel, welded together with a self-closing weighted flap. **They will not corrode or rust over time.**
- Our black poly cork is made of EVA food grade material. **The corks will not break, and have pliable fins to easily insert and remove from bottles. They can be washed and reused. Run the fins under hot water, then cold, about 30 seconds each to reset the fins.**
- When you buy from Anytime, you are buying the highest quality product at a very reasonable price. **We stand behind and guarantee all of our products. Your complete satisfaction is important to us, or we will replace the product free of charge.**

Your customers will seek you out to buy these products – we hear it every day! We're passionate about what we do and are happy to provide first class service.
